

# SUSFANS Work Packages 1 and 6

Dr John Ingram

Environmental Change Institute, University of Oxford, UK

SUSFANS 1<sup>st</sup> Stakeholder meeting,  
Prague Oct 30/2015

METRICS, MODELS AND FORESIGHT FOR  
EUROPEAN SUSTAINABLE FOOD AND  
NUTRITION SECURITY - SUSFANS  
H2020-SFS19A  
Grant 633659  
for the next 4+1M  
over 2015 to 2019

# WP 1: Objectives

To enhance the conceptualization of FNS and to develop metrics for food system sustainability that capture the range of world views across food system actors to enhance food security and environmental outcomes across Europe:

1. To develop conceptual and methodological frameworks for the quantitative assessment of sustainable FNS (WPs 2-4) for a range of time frames in the EU
2. To define sets of quantifiable social, economic and environmental metrics tailored to assess the sustainability of food system activities
3. To ensure sustainability metrics are appropriate for short- and long-term modelling of EU FNS
4. To ensure sustainability metrics cover a range of different stakeholder perspectives and world views

# WP1: Deliverables

- D1.1 Review on the SUSFANS conceptual framework [M15]
- D1.2 Report of food systems activities and sustainability metrics [M24]
- D1.3 Framework paper on sustainability metrics to aid model development [M24]
- D1.4 Report on integration of individual, quantifiable metrics to derive an overall sustainability index of FNS sustainability [M27]

# WP 6: Objectives

The overall objective of WP6 is to ensure SUSFANS products are of optimal value to a balanced range of end users by building and maintaining a solid and effective interaction with a broad stakeholder community throughout the life of the project:

1. To establish a vibrant and active Core Group of stakeholders to work with throughout the project
2. To proactively engage stakeholders in a coordinated series of Workshops to help guide SUSFANS development and delivery
3. To ensure a range of stakeholder world views are embedded in sustainability indicators encompassing social, economic and environmental dimensions
4. To establish how existing European-level, food-related scenarios can best be used for foresight activities for European FNS.

# WP 6: Deliverables

- D6.1 The SUSFANS Stakeholder Core Group [M3]
- D6.2 Four stakeholder consultations [M6, 18, 24 & 36]
- D6.3 Review of sustainability metrics from range world views encompassed in the EU food systems [M33]
- D6.4 Review of existing EU-wide scenarios related to EU FNS [M30]

**Schematic presentation of the interactions between SUSFANS pillars.  
The blue donut indicates stakeholder engagement and functions.**
